kishorekumar.t7358@gmail.com | +91 7358572003

OBJECTIVE

Electronics and Communication Engineering student at Madras Institute of Technology, Anna University, with strong interest in Semiconductor and VLSI Design. Skilled in Verilog HDL, Digital Electronics, RTL Design, and Embedded Systems. Seeking an opportunity to apply technical knowledge in semiconductor, chip design, and VLSI-related roles while contributing to innovative hardware solutions.

EDUCATION

Madras Institute of Technology, Anna University

B.E. Electronics and Communication Engineering (2023—2027)

CGPA: 7.92

Elite Matriculation Higher Secondary School

HSC (2023) — 93.17%

TECHNICAL SKILLS

1. Programming: C, C++, Python
2. Tools: MATLAB, Verilog, KiCAD, LTspice
3. Core Areas: Communication Systems, Signal Processing, Digital Electronics, Analog & Digital Circuit Design, Basic Networking

RELEVANT COURSEWORK

1. System Design Through Verilog – NPTEL
2. MATLAB Onramp - MathWorks

PROJECTS

1. **Secure Voice and Data Communication System Using Encryption (MATLAB)**
Developed a two-way secure communication system for voice and text transmission. Implemented AES-based encryption and analyzed system performance.
2. **Baseband Communication Channel Analysis (MATLAB)**
Simulated signal transmission to analyze delay and distortion effects and studied channel impairments.
3. **Arduino-Based Fire and Smoke Detection System**
Designed a system using Arduino Uno, MQ2 gas sensor, and IR sensors with real-time alert mechanism.
4. **Digital Clock with Alarm using Verilog HDL**
Designed a basic digital clock with alarm functionality using Verilog HDL. Implemented time counting logic, alarm setting feature, and buzzer indication through simulation
5. **Light Activated Alarm Circuit (NE555 Timer)**
Designed a light-sensitive alarm system using LDR and NE555 timer.

ACTIVITIES

Active participant in National Sports Organisation (NSO), MIT

LANGUAGES

Tamil, English, Hindi (Basic)

INTERESTS

Chess, Dancing, Music
